Patron Silver Tequila

Patron comes from Hacienda Patron, Mexico where only the ripe Weber Blue Agave is picked to ensure the optimal sugar content. The leaves are stripped away by hand, revealing the heart of the plant - the piña. After being hand-chopped, the piñas are baked in small brick ovens. Then, they're crushed by a two-ton volcanic stone Tahona wheel and a roller mill. The resulting mixture is fermented for three days, distilled and, in some cases, aged in handmade barrels
