## **Beluga Noble Russian Vodka**

Beluga Noble Russian Vodka is manufactured in a remote area of Siberia. The vodka is produced from grain, malt spirit and purified Siberian spring water. Prior to bottling, Beluga is 'rested' - a process in which the spirit naturally matures in a neutral vessel. It develops complexity due to oxidation and chemical chains bonding and then breaking apart - for 30 days. This rest period allows the molecular components within to stabilize allowing for a smoother more velvet-like mouth-feel and taste

Our premium mixer ranges has been selected to complement your luxury spirit choice and are individual 200ml bottles Fever-Tree which are the connoisseur's choice

## Patron Silver Tequila

Patron comes from Hacienda Patron, Mexico where only the ripe Weber Blue Agave is picked to ensure the optimal sugar content. The leaves are stripped away by hand, revealing the heart of the plant - the piña. After being hand-chopped, the piñas are baked in small brick ovens. Then, they're crushed by a two-ton volcanic stone Tahona wheel and a roller mill. The resulting mixture is fermented for three days, distilled and, in some cases, aged in handmade barrels
